

TRAFFIC ROUTING NOTICE

During the 2010 Llandudno Transport Festival there are additional traffic diversions due to the CLOSURE of the railway bridge at Maesdu Avenue (A546) for reconstruction. Because traffic to and from the West Shore area is diverted via Maesdu Road to the Links Hotel Roundabout on Conway Road this area has the potential for major delays and should be avoided.

Please use **ALTERNATIVE ROUTES** to that advised in past years. There are no height or weight restrictions on either route. Please choose the same routes away from the Festival Field when you leave unless directed otherwise.

A55 Junction 19

If you are using the **A470 LLANDUDNO LINK ROAD** please observe the **TEMPORARY SIGNAGE** which will this year send traffic by a different route into **Craig Y Don via QUEENS ROAD**. This is a right turn on the roundabout at the start of the dual-carriageway section of Conway Road. It will be familiar to participants in the Conwy road-runs.

A55 Junction 20

Also consider using the **B5115** from the A55 near **COLWYN BAY**, which is a shorter, but slower route. No temporary signage will be deployed, so follow the signposts for **B5115 (Rhos on Sea)** and **COLEG LLANDRILLO** initially, and then head over the golf course straight into **LLANDUDNO** via the PROMENADE and Carmen Silva Road, or proceed to the roundabouts by the Yacht Club.

PLEASE NOTE that **NANT Y GAMAR ROAD** between the PROMENADE and the FESTIVAL ENTRANCE will again be **CLOSED** to traffic, so please follow temporary local signs at this point.

A **MAP** is given on the **BACK** of this leaflet to **HELP YOU**.
